

Review the data collected from running the race car:

- 1) Resize the image (<https://www.tutorialkart.com/opencv/python/opencv-python-resize-image/>)
- 2) Draw a line on the image (<https://www.geeksforgeeks.org/python-opencv-cv2-line-method/>)
- 3) Display steer value on the image (<https://www.geeksforgeeks.org/python-opencv-cv2-puttext-method/>)

- Resize our image as 640x320

- Start point
(150, 300)

- End point
(?, 200)
